---

### Career Summary

Arturo is a dynamic Frontend Developer with a decade of experience, seamlessly blending design and development expertise. His journey includes pivotal roles at renowned firms like Globant and Softtek, where he led teams on diverse projects, notably contributing to PassPerfect at Globant and collaborating with major clients like IMCINE, AMAAC and CONACULTA.

With a comprehensive skill set covering Angular+2, Angular Material, TypeScript, JavaScript, HTML5, CSS3, SASS, and BEM methodology, Arturo is known for his meticulous approach to creating pixel-perfect designs and resolving complex interface challenges. His commitment to accessibility standards, demonstrated through achieving level A accessibility (A11y / WCAG) for the PassPerfect platform, reflects his dedication to delivering exceptional user experiences.
